

Permeable Interlocking Concrete Pavers

are the cornerstone
for low impact, green,
development design...
and that's just one of
the many benefits.

TROWEL TRADES SUPPLY INC

Fort Ethan Allen, 206 Hegeman Avenue
Colchester, VT 05446 • 802-655-3166

www.troweltradessupply.com

- A best management practice for storm water control.
- A way to reduce storm water runoff and water pollution.
- A source for LEED points under Sustainable Sites and Materials.
- High strength concrete units with a high surface infiltration rate and potentially lower life-cycle costs relative to other permeable pavements.
- Available in a wide range of colors and shapes.
- A sustainable solution for your next building project.
